ABOUT THIS DOCUMENT	vii
How we selected promising opportunities for philanthropists	ix
I. THE NEED FOR PHILANTHROPIC INVESTMENT IN MALARIA CONTROL	1
Malaria is a global priority for health and development	1
The global strategy to combat malaria	4
How philanthropists can help	6
Why invest now	7
What are the best investments in malaria control	8
II. TREAT AND PREVENT NOW	10
Overview of malaria tools	11
Malaria tools are both inexpensive and cost-effective	14
Philanthropists can address the current gaps in the coverage of tools	15
Effective tool-delivery strategies	16
Addressing current constraints to delivery	
Strategy 1: Extend the existing health system capacity through community health workers ☆	17
Strategy 2: Enlist family members and community volunteers to educate communities ☆	20
Strategy 3: Piggyback on existing systems for delivery of bednets ☆	24
Strategy 4: Scale-up community and household access to new ACTs ☆	27
Helping especially vulnerable populations	
Strategy 5: Build training networks to prevent malaria in pregnancy	30
Strategy 6: Assist the most vulnerable in areas of conflict or natural disaster	31

☆ *In-depth case study included in this section*

III. BUILD SYSTEMS FOR THE LONG TERM	32
Strategy 7: Strengthen health system capacity through effective partnerships ☆	34
Strategy 8: Leverage existing financing resources for system-wide change ☆	36
Strategy 9: Create information networks to track outcomes, monitor resistance, and predict epidemics ☆	38
Strategy 10: Prepare future health leaders from malaria-affected countries	40
IV. INNOVATE FOR THE FUTURE	42
Strategy 11: Support innovation for new tools	44
Strategy 12: Innovate by harnessing the potential of the private sector or applying new technology	48
V. TRANSLATING GOOD INTENTIONS INTO HIGH IMPACT PHILANTHROPY	51
1. Select your entry point supporting the global malaria strategy	51
2. Consider what region you want to target	54
3. Evaluate potential investments	55
4. Measure what matters after you have written the check	58
5. Incorporate proven strategies for successful public health efforts	62
RESOURCES AND REFERENCES	65
Glossary of acronyms and terms	66
Summary of philanthropic opportunities	67
Exemplary models and example agents mentioned in this report	68
How we calculated cost per impact	70
Where to learn more	72
References and endnotes	74
